PRODUCT REFERENCE GUIDE

MARINE

The Amtico Marine collection is specifically designed for marine vessels. Our range fully complies with Modules B and D of the Marine Equipment Directive (MED) and achieves the Wheelmark approval issued by Lloyds Register Verification. Amtico Marine products therefore meet the fundamental safety requirements of the International Maritime Organisation (IMO).

Following feedback received from industry research the new Marine collection has been evolved to include 69 new design-led flooring products. The enhanced range offers a greater selection of wood, stone and abstract products which have been expertly produced to combine stunning designs with technical excellence. Simultaneously the broadened collection now allows a number of product combinations and flexibility in design layouts and motifs to offer greater versatility.
